

An example of collaboration between FECCOO and other relevant agents in the education community.

National platform for public school

CCOO
enseñanza

PLATAFORMA ESTATAL POR LA ESCUELA PÚBLICA

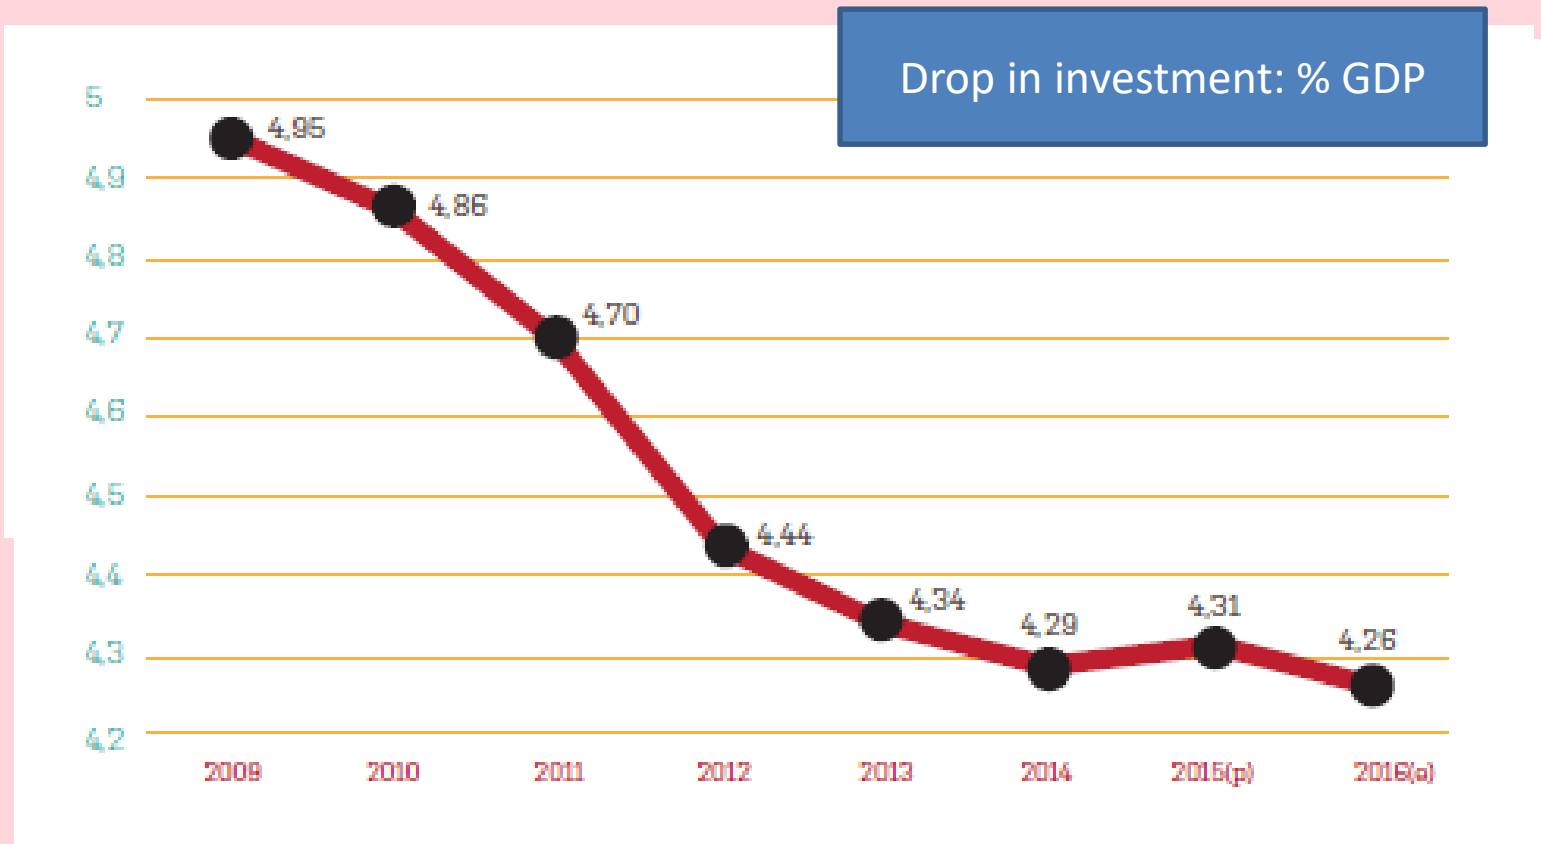

ESCUELA PÚBLICA
DE TODOS
PARA TODOS

The context:

- An unjust and unequal education law that segregates and does not respond to the real needs of society.
- Loss of trust to a degree in traditional institutions among the people.
- Cuts in education.
- An attempt at educational pact in a mostly conservative parliament.

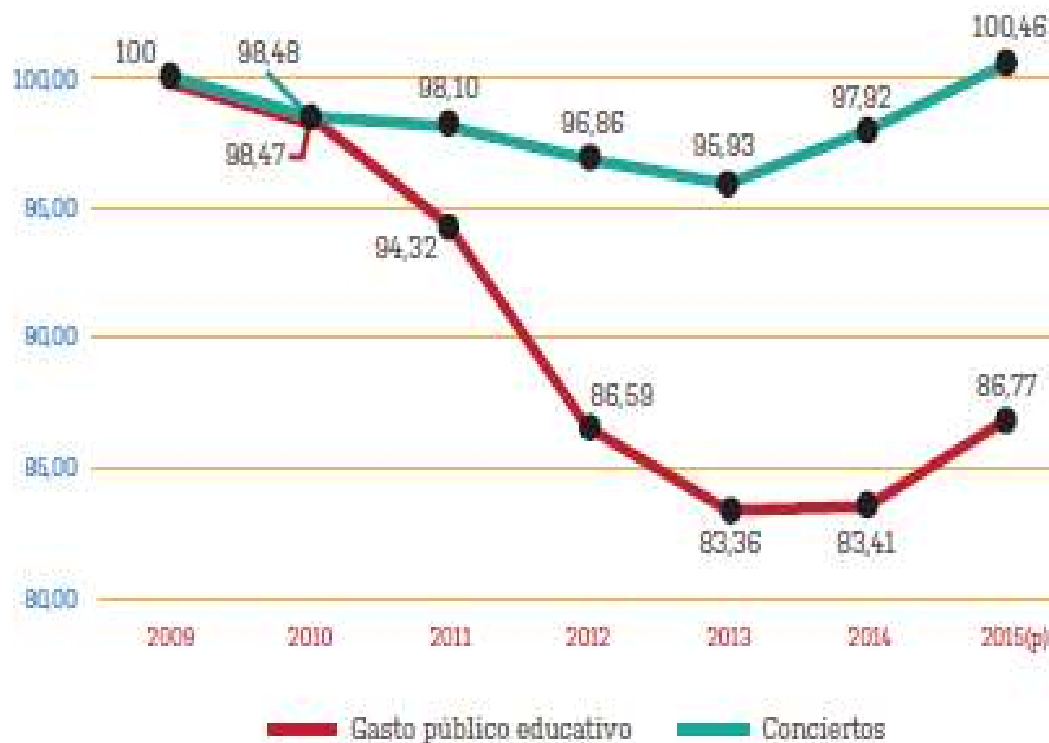

Cuts in education

Conclusion and learnings

1. At the height of rise of social movement Vs traditional representative structures, the participation on this kind of platforms of social agreement is useful and facilitates social mobilization. Specially when the platform has social credibility.
2. It requires an effort by the unions and other organizations to promote their affiliates and sympathisers to give their opinion and participate in the process.
3. Regarding the affiliation rates: We didn't find any significant change.
