-Enough with exploiting student interns!!

-Internships are for students to practice their future career in teaching, not for replacing permanent jobs!!

-What are the internship requirements? How long can the internship last? What kind of work can intern students be asked to do?

Guide to inform young people (inside and outside the company) on any aspect related to their internship, know what situation they are in and consequently, be able to defend their own rights the best they can.

FECCOO has prepared this GUIDE which contains frequently asked questions by young people who have presented themselves to teacher examinations or who have participated in a contest to join a list of temporary work.

We think it can be helpful to know what the teacher admissions process is like in pre-University level public centers.
